ARPIT VAISHNAV - RESUME

Summary	
	• Arpit has almost 6 years of progressive experience in Design, Development and Implementation of web applications in Ruby on Rails.
	• Extensive experience with MySQL, PostgreSQL and Mongo DB.
	• Good Experience with Ruby (1.8.x, 1.9.x and 2.X) and Rails (2.x, 3.x and 4.x) for building web applications.
	• Experience with Installation, configuration and maintenance of Web applications and databases.
	• Worked on the projects using Scrum and Kanban.
	• Engineering web development, all layers, from database to services to user interfaces.
	• Proficient in Linux-Ubuntu, Linux-Fedora and Windows operating system.
	• Hosting applications on domain and server (using Capistrano, Heroku) and trouble shooting.
	• Knowledge in TDD with solid automated test writing skills.
	• Experience with RESTful APIs.
	• Sound knowledge of ruby gems and plugins.
	• Experience with Javascript, Coffeescript, AJAX, jQuery, HAML, SASS, CSS, XML, REST, JSON,Twitter Boostrap.

COMPETENCIES

Category	Primary Skills	Secondary Skills
Programming Skills (As Applicable)	Ruby (1.8.X, 1.9.x,2.X) , Rails (2.X, 3.X, 4.X)	Javascript, Coffeescript, AJAX, jQuery, HAML, SASS, CSS, XML, REST, JSON,Twitter Boostrap
Tools	RVM (Ruby Version Manager), Phpmy admin, My sql, PG Admin, Sublime, Net beans ,	Nano, vi , gedit
Project Management Tool	Basecamp	
Version Control	Git , SVN	
Databases	Mysql, PostgreSQL	MongoDB
Web Servers	Mongrel, Nginx, Apache, Thin, Phusion passenger, forman	
Deployment Tool	Heroku, Dedicated Server	
Ruby / Gem / Plug-in	Devise, Event machine, Dragonfly , Carieerwawe, OmniAuth, Authlogic, Restful-authentication , Solr Sunspot, Delayed job, Whenever, selenium-webdriver, capybara, Browser CMS, Radiant , Spree, Geocoder, Geokit, gmaps4rails , Google charts, Gruff, highcharts-rails , Nokogiri, Hpricot, Libxml-ruby , Image processing, Image science , will_paginate, Kaminari, ajax_pagination, Prawn, Wicked pdf, Wkhtmltopdf , Paperclip, attachment fu ,Friendly Id, roo, workbook , twilio-ruby, activemerchant, rufuse, activemerchant, fancybox, ,fb_graph, tweeter, linkedin, captcha, paperclip, tinymce, auto complete, nifty_generator, nested_form, foursquare2,	
Operating Systems	UNIX, LINUX	Windows

PROFESSIONAL EXPERIENCE

Project:G8 Way
Technologies: Rails (3.2.8) , Ruby (1.9.3) , Mysql , ALEGEUS API
Duration: 6 months (current)
Role: Sr. S/W enginner, managing end to end development (incuding server management, development and communication)

Project Summary: G8way is a wellness incentive administration platform, unique in its seamless ability to interface to and administer wellness incentives and rebates for multiple wellness programs and vendors within a single platform.
Application has features like multiple user roles (Super Admin/ Group Admin / Member) management, member rewards, healthcare organization management with their programs and incentives, analytics report, REST based Api's for group admin for managing their members, programs and incentives.
Member users can manage their own programs, transactions, inc

Project: FDV
Technologies – Rails (4.1.1) , Ruby(2.1.0) , Mysql, Foursquare API, Booking API
Duration: 1 year
Role: Sr. S/W enginner, managing end to end development (incuding server management, development and communication)

Project Summary:
FDV (falando deviagem) is one of the largest travel websites in Brazil. Released in 2010 for PHP and RoR in 2015, broke new ground in the way addresses the information and tips on travel, gaining more and more travelers. Through our innovative tools you can interarir with a social network of travelers, who may exchange information, tips and even plan a trip together. This travels the world to bring the best tips, information and photos, but everyone can share their knowledge.

The system was made in php and needed merge with other system which is capable of seearching hotels. restaurants, and destinations (Attractions of places).

Project: IBT
Technologies – Rails (2.2) ,Rails (3.2) , Ruby (1.8.7) , Ruby(1.9.3) , TCP server with EventMachine , Mysql
Duration: 1 year
Role: Sr. S/W enginner, managing end to end development (incuding server management, development and communication)

Project Summary:
IBT was founded in 1983 has successfully estabilshed itself in the national and international markets with innovative products in the area of audio, control, and video technology.
IBT Interfaces has its main focus on video and control solutions such as Studio router controll, tally system and creating interface between components of different manufacturers, which do not allow a direct connection as such.
Project is about developing one desktop browser application that helps configuring the data sent over the hardware been installed on the system. Earlier this project was on older version of Ruby on Rails (ruby – 1.8.7 and rails 2.2) which has been converted in to the newer version (Ruby 1.9.3 , Rails 3.2.8).

Project: Talenda
Technologies – Rails (2.2) , Ruby (1.8.7) , Mysql
Duration: 1 year
Role: Sr. S/W enginner

Project Summary:
Project was about a job portal where employers and employee meets at one place . Employees can upload their CV s via linked in connection, Facebook and other social sitees. Employess can import CV from the social sites and can add details manually too. Employees can search the job and get notified for the job as per qualification and experience.

Project: Cycling Centuries
Technologies – Rails (2.2) , Ruby (1.8.7) , Mysql , Radiant CMS
Duration: 1 year
Role: S/W enginner

Project Summary:
CTTC (Cycling Through the Centuries) started in 1986 when few companies were in the field of cycle touring. My mother, Maggie Deffense, took that suggestion and ran with it, creating CYCLING THROUGH THE CENTURIES, a unique and specialized company offering in-depth cycling trips off-the-beaten tourist paths throughout the Iberian Peninsula and France.

This project was sharing information about the tours done by the company via cycle in Germany. The site has a facility to create whole from end website from the back end. Its design, web pages, and tours are added dynamically on the website via administrator. In this project Radiant CMS is been used which is one of the CMS tool on Ruby on Rails.

PERSONAL ACCOMPLISHMENTS

	Degree/Certification
Academic Qualification	Master of Computer Application (MCA) from Kadi University (kadi sarva vishwavidyalaya), Gandhinagar, Guajarat , India.
Certifications, Trainings	Diploma in Computer Programming (**CDAC**)

Updated as on: APR-16
